### WTM 2016

**Russell Lindfield, Thermeon Worldwide.**

So another WTM came to a close at 7pm last Wednesday. This year saw the format go from 4 to 3 days and unlike last year the last day was as busy as the first.

We were delighted to see customers from every corner of the world in London. This really is a Car Rental networking event like no other.

Once again we were very happy to have a number of our team from the UK support office meeting clients face-to-face.

So why WTM? Well the facts speak for themselves.

- Over 50,000 people attend
- Nearly 5000 Travel Companies Exhibit
- Over 180 Countries and Regions Represented
- An estimated 300,000 business connections made.

All of this makes for a massive event which seems to grow each year.

A record number of visitors attended the show this year which indicates that despite ever increasing uncertain times globally, the Vehicle Rental Industry and the Tourism Sector as a whole are in a very healthy state.

Colleagues,

A big thank you for all those who took the time to stop by our stand last week at WTM.

It was great to show off some of the great enhancements we have in the pipeline.

In other news: Over the last few months Thermeon has been working furiously behind the scenes to ensure our Payment Card Industry compliance is maintained thus ensuring that your systems are compliant with all the latest credit card payment industry security standards.

While I was in London for WTM yet another report broke of a major [financial operator being hacked](#) with account details and money stolen. And these follow major incidents over the years in other parts of the world.

Unfortunately these attacks are on the rise which forces companies like ourselves to spend hundreds of thousands of dollars each year ensuring your data is kept secure and PCI compliant.

Until next time!

Russell
